About Mean Girls: High School Version

Cady Heron may have grown up on an African savanna, but nothing prepared her for the wild and vicious ways of her strange new home: suburban Illinois. How will this naïve newbie rise to the top of the popularity pecking order? By taking on The Plastics, a trio of lionized frenemies led by the charming but ruthless Regina George. But when Cady and her friends devise a "Revenge Party" to end Regina's reign, she learns the hard way that you can't cross a Queen Bee without getting stung.

About Ziegfeld Theater Arts

The Ziegfeld Arts Academy is about art, collaboration, and acceptance. Our driving motto is "Professional standard, community spirit," and it drives every aspect of our work. We work to enlist A-list local teachers and produce a professional quality classroom environment, always keeping in mind that positivity is essential. Joining these ideals is a guiding principle of improvisation: "Yes...And!" The "Yes" means that we accept theatrical, musical, and visual arts that are furthering the community's knowledge and cultural experience. The "And" describes our dedication to enhancing the idea and furthering its impact.

DIRECTOR'S NOTE

When I was twelve years old, I was at a slumber party with a big group of girls from my church. Very very late at night I remember we all focused on one girl and teased her for a moment. Only a moment, but that was enough, I knew I had taken part in hurting her feelings and that I had sacrificed my own personal standards to be part of that ugly hive mind. I don't remember the girl's name or any other details except for the shame I felt. No one had to scold me or make me apologize. I apologized and vowed never ever to do that again. And I really have tried so hard to kept that promise, so pivotal was that experience. I shared this experience with the cast as we discussed the story we will present to you.

Mean Girls is a cautionary tale meant to teach the same principle I learned that night through satire. Satire is the use of humor, irony, exaggeration, or ridicule to expose and criticize people's crassness, stupidity, or vices, particularly in the context of our contemporary society. Our main character Cady moves to Kenya to Illinois with a beautiful moral compass intact and thriving - excited for a new adventure. But she isn't prepared for the ecosystem of High School and its Apex Predator. Over and over Cady sacrifices her own personal character to fit in and the consequences are swift and hard. She finally finds herself again and makes amends.

Through the use of humor and ridicule, Mean Girls has taught me and the whole cast serious life lessons. I love that these lyrics will be in their consciousness as they are faced with difficult choices and pressures. We hope to all learn vicariously through Cady and her cautionary tale. Maybe, one at a time, we can improve the way we treat each other and the vices in our society can decrease. That would be so FETCH!

Enjoy the show.

I like to be an actor because since I was little I watched this movie called Descendants and I fell in love. I realized that it can be a job, so without hesitation, I said I want to be an actor. I went to one place, and it was not for me; it was not what I was looking for. I went to the Zig, and the moment I walked in, I knew it was for me. I knew it was going to be hard, but I was going to try my best and not give up on my dream of being an actor and being a professional actor. That is why I love being an actor, and I hope I can get far with this. I will not give up.
